OHIO FARM BUREAU FEDERATION NEWS ITEMS OF INTEREST

Toledo last week, pledged approval of the work of their officers and directors, support of the future program of their leaders, and of a suggestion that they each go home and get new members.

They also voted to sit tight and sign no contract for growing beets until hearing further from their trustees.

A. B. Caple, Perryburg, President of the Association told the growers that there was no hope that a better contract might be obtained soon.

Murray D. Lincoln, Executive Secretary of the Ohio Farm Bureau Federation, urged that the organization be made stronger, that the growers continue to have faith in their organization and that they exercise patience and judgment. Mr. Lincoln declared that everything could not be accomplished in a day, and that there should be maintained an attitude of conservatism.

The membership in the association is now about 5,000. It is expected that there will be a substantial increase in membership soon.

TORNADO STRIKES AGAIN
Tuesday evening a tornado struck in Fulton County, about two miles north of Delta; up to the time of going to press we have been able to ascertain the following damages wrought by the storm: On the Fred Grandy farm, straw shed was torn down and roof torn from the barn. On the George Watkins farm occupied by Floyd Watkins the barn was torn to pieces and six cows were killed; the family took refuge in the cellar, but beyond the breaking of some of the window glass, no serious damage was done to the house. Mrs. Floyd Watkins is a daughter of Mr. and Mrs. John B. McQuinn of this city.

It is also reported that some damage was wrought at Ran's Corners, where the storm of March 27th 1920 wrought such havoc.

Children are Good Savers!

Children, once they catch the spirit, are very zealous savers. It is a pleasure to watch the beaming smiles of enthusiasts that light up their countenances as they call at the bank to make deposits.

Our boy and girl friends frequently tell us what they are saving money for. Now and then even a little one will be found who has already started to save for college. Of course, mother and father are helping, but the point is that the little one is learning the value of money and of sensible economy.

Bring your children to us and let them open accounts.
